ool Industry of the United States

bigelow President of the National ation of Wool Manufacturers, recent vered an important address at New n the wool industry of the United The address presents in a condensed rspicuous form the condition of this ndustry and we make use of some of tements on the subject The condition r wool industry in 1868 as compared the years 1850 and 1860, is shown by llowing tabular statement

items	1850 Pounds	1860 Pounds	1868 Pounds
n of wool	52 516,959	60 511 343	177 000 000
f wool im d	$1,681,691	$4,842,152	$8 916,262
f wool man ures im d	17 161 500	37 937 190	12 409 779
f domestic manufac-	43 451 74	68 867 903	176 000 000

will be seen by this statement that the ction of wool increased very little dur- he period between 1850 and 1860, but t has increased enormously from 1860 to resent time To embrace the whole mat- a single brief statement: The produc- and manufacture of wool in the United s are now three times larger than in the 1860 An industry that has increased roduction one hundred and fifty per cent ght years has certainly made a wonderful ncement

e origin of this astonishing progress is resent protective tariff on wool and wool- This tariff has thus built up a great in- ry from a depressed condition to a high of prosperity. It is not a system for xclusive benefit of the manufacturer, as e loosely assert, but it is a system which trebled the number of sheep owned by farmers, and furnished a market for their . It has started woolen factories in all s of the country, thus furnishing profita- employment to a vast army of operatives ost every other pursuit has been quick- l by it. It is to-day one of the most im- ant and profitable branches of farming ustry. The free competition of foreign would ruin it, and this is one of the t reasons why our farmers cannot afford upport that sentimental theory known as trade.

n our own State it seems probable that a ression in this industry will take place soon. eed it has already commenced. But this umstance is the result of certain conditions ch affect directly the cost of manufactur- in respect of which other portions of the ntry have a decided advantage over us. se conditions are the rates of wages paid abor, the rates of interest on capital, and rates of local taxation. That the neces- of paying, in all these respects, much her rates than are paid at the East, puts at a serious disadvantage, is beyond ques- . There is only one way of counterbal- ing this damaging disparity, and that is by rganizing our industries in the Pacific tes, and building them as nearly as may upon an Eastern basis.

In General.

The Oregon City editor apologizes for the ntiness of editorial matter in his paper ing the past two weeks. Pray, don't men it! The paper has been unusually good. don't want to flatter, but can't omit a de- ved compliment.

The Democratic hunt for a candidate for sident in the United States is very much e the hunt of the aristocrats for a king in ain. In both countries the people look d laugh at the struggle, and when the man found they reject him

The Salem *Statesman* reports that the Wal- net Woolen Manufacturing Company at at place are about to suspend operations in ir factory for an indefinite period. The son of the suspension is that "goods in San Francisco market are selling below cost of making up, and the rates which s Company has to pay for labor."

Our national trade statistics for July, which ve just been published, estimate the exports that month at $28,296,177. Over $8,000,- thereof were in the precious metals, $6,- ,000 in wheat, over $3,500,000 in petro- m, and $4,000,000 in tobacco. The imports the month were valued at $36,604,886, of ich forty-three per cent. was warehoused not for immediate consumption. Highest the list, in value, stands brown sugar, $5,- ,000, silk and silk goods, $2,398,645, and olen dress goods, $2,011,421.

Poor old Beriah finds a new opportunity to k about himself. "Our late severe illness " no r his theme, which he says caused the ARGONIAN "the most lively satisfaction." e reason why he invents this "yarn' is, at he wants it understood that he is a per- n of consideration and consequence, whom e "Radicals" would be very glad to see re- oved out of the way! And this is the poor "man's last hope for celebrity" As his ole life has been a failure, he now consoles nself with the idea that his death will prove ccess. This is a way he has of persuad- himself that his name is a terror to his litical enemies. Alas for that poor vanity years!

Much is now being said about a new na- nal loan at a lower rate of interest The *tion*, a very able journal published at New rk, seems to us to hit the matter exactly en it says that such a loan cannot be effect- until "there are no United States bonds to had on any better terms. At present a ple of thousand millions, paying seven or ht per cent. in gold, can be had by any e who wants them. When these are out the way, or the interest on them reduded their still greater appreciation, the time the new loan will have come, and the place it will be the English and German mar- ts. But in order to hasten the loan and sure its success, the Republican party must nstantly and emphatically repeat the ex- ession of its determination to uphold the blic credit."

The *Herald* tells us that its "hope is in Cau- sian civilization " It is both reassuring d gratifying to hear this We now have pes that after all, our feeble race may be le to cope with the Mongolian But we uld feel much better satisfied on this sub- t if the *Herald* would dismiss its Chinese ployees, and give the Caucasian a chance short time ago there were but two Mongo- ns at work for that establishment, but we assured by members of the Workingmen s otective Association, who keep an eye out these things, that the past week there re four. Has this increase of the *Herald* s inese force anything to do with the illimit- le faith in the success of Caucasian civili- ion with which that paper is suddenly in- red? Its idea seems to be that the grand stiny of Caucasian civilization is to be rked out by Chinese labor

Chinese for the South

From Southern papers we learn that Koopmanschap s project of introducing Chinese laborers in that section is fully organized and is supported by leading planters The first lot of laborers will be located on the rice and sugar lands of Louisiana Contracts are already closed for four or five ship loads, to be delivered at Key West by the Pacific Mail Steamship Company The contracts with the laborers through their agent are drawn up for five years They are to be paid nine dollars per month in gold one half at the end of each month and the balance at the end of the year Food is to be furnished them by their employer They obligate themselves to refund the money paid for their passage from China out of their first wages or earnings The leading planters of the district where this first installment of laborers are going are earnest supporters of the movement As the scheme is a Southern one and commenced under the auspices of the late slaveholders, the Democratic press of the Pacific coast, which has had so much to say about the Chinaman of late, ought not to complain

The universal expressions of regret and sorrow elicited by the sad and sudden taking off of Henry C Coulson show how deep and general was the friendship for one who, himself, was the friend of all. It were useless to attempt to recount to a community where he was so well known as here the many good qualities which won for him the esteem of all who knew him, and we may only say that there was among us no more genial nature or kindly spirit than he who has thus early been called to his rest

Omaha has 5 306 families. A local paper from this estimates the population at 26 980 averaging the families at five each, or 21,681, averaging them at four each.

Mr Jenckes, of Rhode Island, is at the present time engaged in securing signatures to petitions in various cities, for the passage of his civil service bill through Congress.

General Butler, alluding to the reports that he means to "fight" General Schenck at the next session of Congress for the expensive tour of the Committee of Ways and Means, says that he has no time for such encounters nor to reply to all the newspaper gossip about himself.

A Montreal paper has this advertisement "A young Hiumwber, at 25, would be willing to exchange stationery with some young lady of good sense and spelling, with a view to the chances of their liking each other well enough to keep up the correspondence. Those who sympathise, will please address "

The bronze statue of Jefferson, by the famous French sculptor David, which stands in front of the White House, Washington, is rapidly going to destruction. It is covered with verdigris, which is fast eating away the fine lines of the face and the roll of parchment emblematic of the Declaration of Independence.

John Rogers, the well known designer of statuettes, has just completed a new group, entitled the "Fugitive's Story," representing a young negress, with a baby in her arms and a bundle of clothes at her feet, telling her story to three distinguished listeners—Wm Lloyd Garrison, John Greenleaf Whittier, and Henry Ward Beecher.

An Illinoisian has invented a gun with a hopper for powder and one for balls. A smart boy at the crank can discharge it 200 times a minute The barrels and cylinders are encased in water to prevent heating It is not a convenient weapon for squirrel hunting, but is excellent protection to a watermelon patch

Gathering In

I only wish to refer, in treating upon this subject (which ought to be important,) to those things which are usually grown in the vegetable gardens. As to harvesting large crops, that is another matter altogether. But it is my opinion that there is no branch of horticulture so generally neglected as that of gathering in the vegetables we have taken so much pains to plant and cultivate. It has often struck me with surprise, when I saw a man plow or dig his garden with the greatest care, go to considerable pains to obtain the very best seed: plant them at exactly the right time and in exactly the right way, watch for their first appearance above ground with the greatest interest; hoe, weed, water and attend to their growth in every way that experience and the books dictate, and then, when the time for cultivation had passed, and that for the realization of his expectations had arrived, and his garden was full of valuable herbs and vegetables, to lose at once all interest in the matter and leave the gathering of the various esculents entirely to the cook, or anybody else who might have the time or inclination to attend to it How often have I seen glorious rows of Lima beans, one half of them hardening, while the family scarcely ever had as many as they could eat at a meal, and did not have them every day at that Cucumbers, too, which ought to be picked by an experienced person at exactly the right time are turning yellow in every direction, and if the family does have enough of them that is no reason why these should go to waste As for peas, and early sweet corn, it is seldom that they come to the table in that delicious stage in which they only remain for a day or two Too green or too old, it matters not to a servant so that the requisite quantity is easily obtained Did any one ever see appearing at dinner, regularly during the season, a dish of sweet corn all the ears of which were of the proper maturity? I think it is a rare sight, and yet if a very small part of the care which was bestowed upon the raising of that corn had been given to its gathering a good sized garden, properly planted, would have given plenty of ever green or other sweet corn for a dish every day during the season every ear of which should be exactly ripe and nothing more

As to potatoes, turnips beets and such vegetables as do not lose their good qualities by being left in the garden a week or two after maturity, a little negligence may be excusable but even in these cases there is a right time to pull and dig and the really good gardener will know that time and avail himself of it Speaking of gardeners reminds me that these observations do not apply so often to those gardens managed the whole year by a competent man hired for the purpose But the majority of country and village gardens are not so managed In the spring and early summer, the head of the family generally gives his personal attention to the planting and cultivating processes, and if help is needed it is hired But as the received opinion about pulling and picking vegetables is, that anybody can do it the result is that the garden is by no means the comfort and profit that it ought to be A business man who would work hard and take all sorts of proper pains to make large sales and then display indifference or general want of interest in the collection of his bills ought hardly to expect very great success But the trouble with most of our domestic gardeners seems to be that they do not know what real success is Having never experienced the delights of living upon summer vegetables gathered at precisely the right moment they do not know what they lose But it is very certain that they lose a great deal When we consider the great advantage they enjoy over city folks, who can never have vegetables which are absolutely fresh and perfect, it seems a shame that these advantages should be esteemed so lightly Especially does this seem strange when we consider that the people who neglect the gathering processes are often not lazy or negligent people. They pay the greatest attention to preliminary cultivation. No one could be more industrious at these times than they are But it seems to me that as summer progresses, the majority of people get tired of their gardens. At any rate, they do not seem to think that their work is not done until everything is properly gather in —*Health and Home*

HARRY COULSON ACCIDENTALLY KILLED.—The city was startled Saturday afternoon, to hear that Harry Coulson had accidentally shot and killed himself. The particulars of the melancholy occurrence are substantially as follows: He had gone in the forenoon with Charles Kuchu bird shooting, two or three miles below the city, on the river bottom. Early in the afternoon, having had but poor luck, they concluded to return home. After starting for the city, they again separated, Coulson going after a bird he saw at some distance, and Kuchu going in another direction to shoot some ducks. In about an hour, Kuchu came back to where he expected to find Coulson. Not far from where he had left him he saw a hat lying on the ground near a fence, and going to pick it up he almost immediately discovered Coulson lying beside the fence, with a gun shot wound through his head, his gun lying partly under him with one barrel discharged and the hammer of the other upon full cock. Mr. Kuchu immediately hurried off for help, Drs. Chapman and Wilson were called, but upon seeing the wound, they at once pronounced it fatal. The unfortunate man was taken into a wagon to be brought to the city, but he expired while yet on the way. From the situation in which he was found, it seems to be the general opinion that he was in the act of climbing the fence, and that in drawing the gun up by the muzzle the hammer was set off. The charge appears to have entered the left side of the head, near the ear coming out at the forehead having passed through the brain. The body was conveyed to the house of Mr J. M. Strowbridge, his brother in law whence the funeral will take place this afternoon. Mr Coulson had but recently formed a copartnership with Mr Sprenger in the Pacific Hotel. He was widely known having been several years a resident of the city, had been for two or three terms the clerk of the county, was a member of the Fire Department, and a member and Past Grand in Samaritan Lodge No 1 Odd Fellows—in all of which positions he had always borne himself in such manner as to secure the respect and affection of all with whom he had official or fraternal relations. We know of very few men whose sudden and tragic death could so shock and sadden the people of a whole city as has this event. The memory of Harry Coulson will long dwell tenderly in the hearts of all who knew him.

ODD FELLOWS THEATRE.—The sensational and spectacular drama of "The Nick of the Woods" was presented Saturday night, in the main, in very acceptable style. Mr Carter's personation of Bloody Nathan was for the most part quite creditable as was Mrs. Carter's Telie Doe. Mr Butler's character was well sustained but the great success of the performance was Mr Barry's Ralph Stackpole. Mr. Morrison as Roland Forrester was too tame and the same remark will apply to Miss Cummings' Edith. Mr Ellerton spoke the part of Col Bruce quite well but failed in the acting of the part. The play abounds with startling tableaux and situations, and altogether pleased the audience very much.

To-night, Mrs. Bates who is very decidedly a favorite with the Portland people, will appear in her great character of Camille, in the play of that name supported by the full strength of the company. After her long absence she can scarcely fail of drawing a full house. To our taste and judgment, no actress who ever visited Portland in this character with so much humanity and attractive sweetness as Mrs Bates.

EAST SIDE RAILROAD—ARRIVAL OF THE FIRST LOCOMOTIVE.—The bark *Webfoot* having on board a considerable quantity of railroad iron and a locomotive arrived Saturday night, in tow by the steamer *Okanagon*. She hauled over to East Portland yesterday morning and the work of landing the locomotive was immediately commenced, under the supervision of Mr. Kidder the constructing engineer of the road. The engine is one of the Hinkley locomotives from the Michigan Central railroad. She has been used but was last year reconstructed, and is now practically a new engine. She will be landed and placed on the track probably to-day or to-morrow. The turn table will be completed by the time it is wanted for the purpose of running the engine from the wharf to the main track. The work of track laying is being pushed vigorously forward. The machine shops were passed Saturday evening and yesterday the workmen were engaged in extending beyond. The locomotive will be at work by the middle of the week and thereafter the speed of track laying will be much accelerated.

PASSENGERS FOR CALIFORNIA.—The steamship *Oriflamme*, Bolles commander, sailed for San Francisco last evening, taking the following named passengers:

G Temple Emmet and lady, Mrs B B Decker, Dr. H F White, wife and 2 children, J H Berry, Samuel Miller, wife and 2 children, Rosan Sanara, G A Marshall, Mrs J B Rogers, A Hembree, Miss Denny, Miss L Graham, Mrs Denny, Mrs C Call, M W Wasson, Mrs S Elliott, M Mayer, Mrs Butler, W Kershaw, J Manter, Wm F Laner, S Albu, M Ehrenreich, S A Frankonea, K Allen, W Laner, Miss E Wakefield, S S Leroy, wife and child, Miss Emma Cox, Thos Hampton, wife and 2 children, Henry Weck, Miss L Allen, C H Wakefield, W J Barber, T R Hibben, Henry Bailey, Joseph D Graham, R Lipestad and servant, S M McBride and wife, D McCallum and 2 children, E C Hingburg, Miss Mary Pendergast, Mrs W J Deane, P J Wacof, Frederick Sitz, A Mr Kraus, J C Baldwin, and 10 in steerage.

WASHINGTON GUARD'S SOIREE.—The dancing party of Saturday evening, under the auspices of the Washington Guard, though a small number were present, was an unusually pleasant affair.

The resignation of Mr Crawford [illegible] William [illegible] Walling was accepted [illegible] as a member of the Board [illegible] at al

Hook house of Protection Engine Co No 4 was selected as the place for the next annual election and Thomas G Young, C H Marvin and H Irwin were appointed judges to conduct the election and make return of the votes.

ATTACKED AT A DEER.—Mr Kelly who was at work at the Court House on Saturday, having the premises went it in the Court House yard for something, when a buck deer confined in the yard attacked him and came near getting the best of the battle. Mr. Kelly however grappled the animal by the horns and calling for help was assisted out of his dilemma by Wm Davis and Dick Holmes who happened to be in the building.

PERSONAL NOTICE.—A correspondent at Vancouver writing of the recent appointment of James Crawford to the Commissary General of the Territory, says: "It is proposed by his friends to present him with a sword and its accompanying equipments. He is a gentleman of eminent abilities, and his long experience in military matters makes him the right man in the right place." To all of which we subscribe.

STEAMERS FOR THE UPPER WALLAMET.—The steamers of the P T Co will this morning commence making trips to Albany and Corvallis. Boats will be dispatched from the Basin upon the arrival of the Portland boat on Mondays, Tuesdays, Wednesdays, Fridays and Saturdays. Boat leaves Portland at 5 o'clock A M.

VISITORS.—A considerable crowd of people went over to East Portland yesterday, to see the lately arrived locomotive, J B Stephens, and the work done upon the Oregon Central Railroad. During all the middle and latter part of the day the ferry boat took over an average of forty or fifty each trip.

MAIL LETTINGS.—On our fourth page will be found an advertisement of proposals to let the carrying of the mails in this State from July 1st 1870 to July 1st 1874 together with the full schedules of arrivals and departures and all necessary information to bidders.

LODGE MEETING.—There will be a meeting of Samaritan Lodge, at noon to-day for the purpose of attending the funeral of Brother P G Henry C Coulson. An invitation is extended to members of all other lodges to attend and participate in the ceremonies.

FESTIVAL.—The festival to be held by the ladies of Trinity Church, on Wednesday evening, at Armory Hall promises to be a very pleasant affair. As the object is a good one it is hoped it will be liberally patronized by all lovers of good things.

DEDICATION.—The new Odd Fellows Hall at Oregon City will be formally dedicated on Thursday the 25th inst, at two o'clock in the afternoon. The dedication is a general invitation to the fraternity to be present.

SAILING POSTPONED.—The steamship *Oriflamme* did not sail on Saturday evening as had been announced. In consequence of the storm prevailing she stayed here till last evening.

AT HALF MAST.—Flags were flying at half mast during yesterday from the several engine house staffs, as a mark of respect to the memory of H C Coulson deceased.

TO SAIL.—The steamship *Ajax* is advertised to sail on or about Tuesday the 16th for San Francisco and the *Gussie Telfair* will sail this evening for Victoria.

ROUGH WEATHER.—For the last two days we have been having some rough weather—rain and strong winds—in the regular opening style of a Webfoot winter.

RACE POSTPONED.—The race at the White House announced for Saturday, was postponed for one week in consequence of bad weather.

TO TAX PAYERS.—See notice by Sheriff Zieber in this morning's OREGONIAN.

THE RAILROAD IRON continues to arrive by hundreds of tons. The *Webfoot* having a locomotive on board is on her way to our city and everything to facilitate the building of the great Railroad is progressing as well, as those *Nonpareil Beaver Suits* and those *extra Scotch Chinchilla Roundabouts* are selling at KOHN & FISHEL'S, whose Stock of CLOTHING and GENTS FURNISHING GOODS is the handsomest ever imported to Oregon, and their principle of selling with SMALL PROFITS proves a benefit to the public as well as to themselves. Their Stock of DRY GOODS is positively offered at COST.

POLITICAL ITEMS

The Chairman of a Dent meeting at Jackson, Miss., introduced a colored Democrat John F Harris, of Memphis as an orator "and a gentleman as far as politics are concerned."

Gen Butler told a reporter of a Milwaukee paper the other day, that if God ever made a nuisance, the "interviewing" reporter is one, and the Milwaukee man could make personal application of the statement if he wanted to.

A Washington dispatch of Oct 23d, states that "The Tennessee Republicans, temporarily resident here, held a meeting last night at which resolutions were adopted congratulating the State and country at large on the defeat of Andrew Johnson."

The Pittsburg *Leader* says: "Next fall in the State the Republicans will be reinforced by a negro vote that will range between ten and fifteen thousand, of which they will probably get nineteen twentieths. There is a poor look out ahead for the Pennsylvania Democracy."

A Washington dispatch of October 22d gives the following: "The defeat of Andy Johnson is a source of considerable congratulation here. Nobody feared any mischief that he might do but everybody felt that he would be an intolerable nuisance in the Senate, eternally opening his old sores to the gaze of the public and making a disagreeable exhibition of himself upon every occasion. The few Stokes Republicans who are here are having quite a little jollification over the result especially in view of the fact that the Republican votes elected Cooper whom they regard as a very fair man, much to be preferred to either Johnson or Etheridge or any of the fossils who were successively named and abandoned."

Multnomah Engine Company No. 2.—The members of the company are requested to meet at the Engine House at 1½ o'clock to attend the funeral of Henry C. Coulson.

INSTRUCTIONS TO BIDDERS AND POSTMASTERS;

Containing also conditions to be incorporated in the contracts to the extent the Department may deem proper

1 Seven minutes are allowed to each intermediate office when not otherwise specified, for assorting the mails ... on railroad and steamboat routes there is to be no more delay than is sufficient for an exchange of the mail pouches

2. On railroad and steamboat lines and other routes where the mode of conveyance admits of it the special agents of the Post Office Department, also post office blanks, mail bags locks and keys are to be conveyed without extra charge

3 On railroad and steamboat lines the route agents of the Department, also the British and Canada mails when offered, and the agents accompanying them are conveyed without charge; and for the use of the United States agents a compartment-car, or part of a car properly lighted warmed and furnished and adapted to the convenient separation and due security of the mails is to be provided by the contractor, under the direction of the Department

Railroad and steamboat companies are required to take the mail from and deliver it into, the postoffices at the beginning and end of their routes, and to and from all offices not more than eighty rods from a station or landing. Proposals may be submitted by the companies for the performance of all other side service—that is, for offices over eighty rods from a station or landing.

There will be "way bills" prepared by postmasters or other agents of the Department, to accompany the mails conveyed on railroads and steamers, specifying the number and destination of the several bags, on other principal routes likewise, receipts will be required and way bills forwarded, the latter to be examined by the several postmasters, to insure regularity in the delivery of mails

4. No pay will be made for trips not performed and for each of such omissions, not satisfactorily explained three times the pay of the trip will be deducted. For arrivals so far behind time as to break connection with depending mails and not sufficiently excused one fourth of the compensation for the trip is subject to forfeiture. For repeated delinquencies of the kind herein specified enlarged penalties, proportioned to the nature thereof and the importance of the mail may be made

5 For leaving behind or throwing off the mails, or any portion of them for the admission of passengers or for being concerned in setting up or running an express conveying intelligence in advance of the mail a quarter's pay may be deducted

6 Fines will be imposed unless the delinquency be promptly and satisfactorily explained by certificates of postmasters or the affidavits of other credible persons for failing to arrive in contract time; for neglecting to take the mail from or deliver it into a postoffice for suffering it to be wet injured destroyed robbed or lost and for refusing after demand to convey the mail as frequently as the contractor runs or is concerned in running a coach car or steamboat on a route

7 The Postmaster General may annul the contract for repeated failures to run agreeably to contract for violating the post office laws or disobeying the instructions of the Department, for refusing to discharge a carrier when required by the Department to do so for running an express as aforesaid or for transporting persons or packages conveying mailable matter out of the mail

8 The Postmaster General may order an increase of service on a route by allowing therefor a pro rata increase on the contract pay. He may change schedules of departures and arrivals in all cases and particularly to make them conform to connections with railroads without increase of pay provided the running time be not abridged. The Postmaster General may also curtail or discontinue the service in whole or in part in order to place on the route superior service or whenever the public interests in his judgment shall require such discontinuance or curtailment for any other cause he allowing as full indemnity to contractor one month's extra pay on the amount of service dispensed with and a pro rata compensation for the amount of service retained and continued.

9 Payments will be made by collections or by drafts on postmasters or otherwise after the expiration of each quarter say in November February May and August

10 The distances are given according to the best information but no increased pay will be allowed should they be greater than advertised if the points to be supplied be correctly stated. Bidders must inform themselves on that point and also in reference to the weight of the mail and the road, hills streams, &c, and all toll bridges ferries or obstructions of any kind by which expense may be incurred. No claim for additional pay based on such ground can be considered, nor for alleged mistakes or misapprehensions as to the degree of service nor for bridges destroyed, ferries discontinued, or other obstructions increasing distance occurring during the contract term. Offices established after this advertisement is issued and also during the contract term, are to be visited without extra pay if the distance be not increased

11 Bidders are cautioned to mail their proposals in time to reach the Department by the day and hour named 3 p m ... for bids received after that time will not be considered in competition with a bid of a reasonable amount received in time. Neither can bids be considered which are without the guaranty required by law and a certificate of the sufficiency of such guarantee

12 Bidders should first propose for service strictly according to the advertisement and then, if they desire, separately for different service; and if the regular bid be the lowest offered for the advertised service the other bid may be considered

13 There should be but one route bid for in a bid. Consolidated or combination bids proposing one sum for two or more routes are forbidden by law and cannot be considered

14 The route the service the yearly pay, the name and residence of the bidder (that is his usual post office address) and the name of each member of a firm where a company offers, should be distinctly stated
